FUNDING MWD MISSIONS

- CMC (POS) Naval Message DTG 192020Z Sep 00
- MWD missions are a Marine Corps support function, vice a PMO support function.
- Installation Comptroller provides funding by using installation operating funds to support MWD missions, vice PMO operating funds, unless the comptroller has established a PMO MWD Mission operating fund cite.
- If the Installation Comptroller does not have the necessary funding to support a MWD mission, then the Installation Comptroller notifies the next higher Comptroller within their chain-of-command to request funding until it reaches HQMC (P&R) for funding.
- Request you notify POS-14 if you experience a problem with funding MWD missions. HQMC (P&R) wants to ensure that PMOs are receiving funding support.
